This edited volume examines the reconstitution of the public security domain since the 9/11 attacks, focusing on the banking sector and anti-money laundering (AML) activity in particular. Since the inception of the 'Financial Action Taskforce' (FATF) in 1989, AML has been viewed as a global problem. This text argues that the securitization of the financial sector as a result of AML has entailed the emergence of a new public security domain, which transcends the classic public-private divide. The analysis in the volume is multidisciplinary and combines concepts and theories from the literature on securitization, the public-private divide, and business/management. The authors argue that the state is under transformation and that the developments in the security field are part of an ongoing renegotiation of the relationship between the state and the business sector. Securitization, Accountability and Risk Management therefore contributes to a deeper understanding of how the power relationships have changed between the public and the private sectors after 9/11. This interdisciplinary book will be of much interest to students of critical security, risk management, business studies, critical legal studies and IR in general.

The Structural Engineer's Pocket Book British Standards Edition is the only compilation of all tables, data, facts and formulae needed for scheme design to British Standards by structural engineers in a handy-sized format. Bringing together data from many sources into a compact, affordable pocketbook, it saves valuable time spent tracking down information needed regularly. This second edition is a companion to the more recent Eurocode third edition. Although small in size, this book contains the facts and figures needed for preliminary design whether in the office or on-site. Based on UK conventions, it is split into 14 sections including geotechnics, structural steel, reinforced concrete, masonry and timber, and includes a section on sustainability covering general concepts, materials, actions and targets for structural engineers.

INSTANT NEW YORK TIMES BESTSELLER A REESE'S BOOK CLUB PICK A BELLETRIST BOOK CLUB PICK AMAZON BEST OF THE YEAR "A masterpiece." - R.O. Kwon The Crucible meets True Grit in this riveting adventure story of a fugitive girl, a mysterious gang of robbers, and their dangerous mission to transform the Wild West. In the year of our Lord 1894, I became an outlaw. The day of her wedding, 17 year old Ada's life looks good; she loves her husband, and she loves working as an apprentice to her mother, a respected midwife. But after a year of marriage and no pregnancy, in a town where barren women are routinely hanged as witches, her survival depends on leaving behind everything she knows. She joins up with the notorious Hole in the Wall Gang, a band of outlaws led by a preacher-turned-robber known to all as the Kid. Charismatic, grandiose, and mercurial, the Kid is determined to create a safe haven for outcast women. But to make this dream a reality, the Gang hatches a treacherous plan that may get them all killed. And Ada must decide whether she's willing to risk her life for the possibility of a new kind of future for them all. Featuring an irresistibly no-nonsense, courageous, and determined heroine, Outlawed dusts off the myth of the old West and reignites the glimmering promise of the frontier with an entirely new set of feminist stakes. Anna North has crafted a pulse-racing, page-turning saga about the search for hope in the wake of death, and for truth in a climate of small-mindedness and fear.

This fourth edition of the publication, the so-called Blue Book, continues to provide precise and updated information on the World Forum for Harmonization of Vehicle Regulations (WP.29) serviced by the UNECE Sustainable Transport Division. It contains information on its historical background, its administrative and legal framework (with a user's guide), and the three international United Nations Agreements administered by the World Forum.

Take three friends. Add an old cookbook. Combine with cute boys and a pinch of magic…and see what kind of chaos ensues! When Kelly Quinn and her two BFFs discover a dusty old cookbook while cleaning out the attic, the girls decide to try a few of the mysterious and supposedly magical recipes that are inside. To their surprise, the Keep 'Em Quiet Cobbler actually silences Kelly's pesky little brother and the Hexberry Tart puts a curse on mean girl Charlotte. Is it possible that the recipes really are magic? Who wrote them and where did they come from? And most importantly of all, when boys get involved, what kind of trouble are the girls stirring up for themselves?

The Routledge Handbook of Lexicography provides a comprehensive overview of the major approaches to lexicography and their applications within the field. This Handbook features key case studies and cutting-edge contributions from an international range of practitioners, teachers, and researchers. Analysing the theory and practice of compiling dictionaries within the digital era, the 47 chapters address the core issues of: The foundations of lexicography, and its interactions with other disciplines including Corpus Linguistics and Information Science; Types of dictionaries, for purposes such as translation and teaching; Innovative specialised dictionaries such as the Oenolex wine dictionary and the Online Dictionary of New Zealand Sign Language; Lexicography and world languages, including Arabic, Hindi, Russian, Chinese, and Indonesian; The future of lexicography, including the use of the Internet, user participation, and dictionary portals. The Routledge Handbook of Lexicography is essential reading for researchers and students working in this area.

This international handbook is essential for geotechnical engineers and engineering geologists responsible for designing and constructing piled foundations. It explains general principles and practice and details current types of pile, piling equipment and methods. It includes calculations of the resistance of piles to compressive loads, pile group
