Here's what you'll get with this six book package: A Beginner's Urban Survival Prepping Guide: Survivalist Warrior Basics 101 Here Is A Preview Of What You'll Discover... in the Survivalist Warrior Basics 101 : Basic Prepper And Survival Tips Thanks to all the latest reality shows, everyone wants to learn how to survive, which isn't necessarily a bad thing. The world should know how to survive, slightly more crucial situations than your iPhone, needing a charge or apologizing for an embarrassing tweet. So it's good that the ancient art of practically taking care of yourself without the help of modern technology is enjoying a considerable resurgence in popularity however, that being said, it should be very clear that survival involves considerably more than simply stockpiling food sleeping bags, medical kits and weapons (although this definitely is an important part of survival is not the most important) all of the fanciest survival gear. A Beginner's Urban Survival Prepping Guide: Survival Basics In 30 Minutes Flat For Newbies And Survival Here Is A Preview Of What You'll Discover... in the Survival Basics In 30 Minutes Flat For Newbies There is a common misconception in the world that survival situations only happen to people in the wilderness like mountain climbers, extreme skiers were backpackers and they think a survival situation is a bear attack falling off a cliff or getting stuck in an avalanche big picture survival as a primitive camping setting having to make a shelter from leaves and twigs and start their own fire and forage for food. The reality is that a survival situation can happen anywhere from the top of Mount Everest to three blocks away from your house at your favorite coffee shop. Each of these situations is the unique survival scenario that requires its own tools and skills. A Beginner's Urban Survival Prepping Guide: Survival Tips in the Prepping Urban Environment Urban survival may be the scariest survival scenario, you will ever face unlike wilderness or desert environments, where you are not directly in competition with the environment, you are merely trying to understand its rules and laws and incorporate them into your own existence and challenge yourself to live by the most ancient code of conduct that mother nature herself developed, the rules that say "as long as you respect me I will respect you." In a wilderness survival situation you are dealing with isolation, whereas in an urban jungle. You will be dealing with different laws in different rules.
