## Logic Puzzles | Solve a Puzzle

Logic puzzles (also known as "logic grid puzzles") require the solver to deduce the relationships between different people, places and things based on a limited number of clues given in the puzzle. Remember: every item on the board belongs to one and only one person, no item will ever be shared. Using only the clues provided and simple deductive logic and reasoning, fill in the grid with X's and O's to determine the solution.
