A great book detailing this history of brainwashing from various means including military experiments with hypnosis and LSD, religious cults, hidden messages in heavy metal albums, right up to modern interrogation techniques. No pie-in-the-sky conspiracy theories here, this book is based on factual accounts and is excellently researched.

The cover of the book shows an interrogation scenario, but the title is "Brainwash". It's a bit of an unsuccessful mixture of three separate books on brainwashing, mind control and interrogation. There is also a chapter on psychiatric abuses, which also probably deserves a separate category.

A detailed account of half a century's worth of secret government psychological experiments to control the human mind and will draws on formerly classified documentation and examines techniques used by the CIA, the KGB, the Taliban, and a number of religious cults and advertisers. Reprint. 15,000 first printing.

A harrowing account of brainwashing's pervasive role in the twentieth and twenty-first centuries This gripping book traces the evolution of brainwashing from its beginnings in torture and religious conversion into the age of neuroscience and social media. When Pavlov introduced scientific approaches, his research was enthusiastically supported by Lenin and Stalin, setting the stage for major breakthroughs in tools for social, political, and religious control. Tracing these developments through many of the past century's major conflagrations, Dimsdale narrates how when World War II erupted, governments secretly raced to develop drugs for interrogation. Brainwashing returned to the spotlight during the Cold War in the hands of the North Koreans and Chinese. In response, a huge Manhattan Project of the Mind was established to study memory obliteration, indoctrination during sleep, and hallucinogens. Cults used the techniques as well. Nobel laureates, university academics, intelligence operatives,

criminals, and clerics all populate this shattering and dark story—one that hasn't yet ended.

A journalist's twenty-year fascination with the Manson murders leads to shocking new revelations about the FBI's involvement in this riveting reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, *Chaos* mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

Political Science.

The bestselling author of *All the Shah's Men* and *The Brothers* tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. *Poisoner in Chief* reveals him as a clandestine conjurer on an epic scale.

## Dominic Streatfeild

Bringing the worlds of neuroscience and social psychology together, this book examines the ethical problems involved in carrying out the required experiments on humans, the limitations of animal models, and the frightening implications of such research. It also explores the history of thought-control and shows how it exists around us.

To understand why, you'll need to know how ... - an Australian metals trader named Garry-with help from the CIA-inadvertently triggered the invasion of Iraq - coalition troops were killed by bombs made with explosives that, according to the White House, never existed - the United States Air Force bombed a wedding in Afghanistan by mistake - the U.S. gave material support to the president of Uzbekistan, who, as it happens, boils people alive These are not merely random disasters from an otherwise effective war. A History of the World Since 9/11 shows us just why, a decade after the horrifying attacks on New York and Washington, we are no closer to winning the war on terror than we were on September 10, 2001. We failed to find Osama bin Laden or quell extremism. We sparked civil wars in Afghanistan and Iraq. Around the world, innocents were incarcerated, tortured, and murdered—all in the name of justice. Acclaimed author and journalist Dominic Streatfeild traveled across the world for years in pursuit of answers for this stunning collapse of international law. The results of his search form the most fully realized study of the war on terror yet written. Piercing reportage blends with sobering human drama, woven into eight narratives of how our world went wrong after 9/11.

Examines the history of cocaine from its first medical uses to the worldwide issues it presents today, taking readers into such locations as the isolation cells of America's prisons, crack houses in New York, and the jungles of Bolivia and Colombia, tracing its manufacture and chronicling the accounts of its cultivators, traffickers, and fighters. Reprint. 20,000 first printing.

**NEW YORK TIMES BESTSELLER •** The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject." **WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews** The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as "arguably [Israel's] best investigative reporter"—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad" that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-

the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, *Rise and Kill First* brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré

First published in 1956, this book by U.S. journalist and intelligence agent Edward Hunter comprises dramatic first-hand accounts from Korean War veterans who survived P.O.W. camps and Communist attempts to brainwash them. "The new word brainwashing entered our minds and dictionaries in a phenomenally short time. [...] The reason the word was picked up so quickly was that it was not just a clever synonym for something already known, but described a strategy that had yet no name. [...] The word came out of the sufferings of the Chinese people. Put under a terrifying combination of subtle and crude mental and physical pressures and tortures, they detected a pattern and called it brainwashing. [...] What they had undergone was more like witchcraft, with its incantations, trances, poisons, and potions, with a strange flair of science about it all, like a devil dancer in a tuxedo, carrying his magic brew in a test tube." A true and terrible story of the men who endured and defied the most diabolical red torture—the war book you will never forget. "A fascinating document."—Chicago Tribune
