Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

The tenth annual Advertising and Consumer Psychology Conference held in San Francisco focused on branding -- a subject generating intense interest both in academia and in the "real

world." The principle theory behind these conferences is that much can be gained by joining advertising and marketing professionals with academic researchers in advertising. Professionals can gain insight into the new theories, measurement tools and empirical findings that are emerging, while academics are stimulated by the insights and experience that professionals describe and the research questions that they pose. This book consists of papers delivered by experts from academia and industry discussing issues regarding the role of advertising in the establishment and maintenance of brand equity -- making this volume of interest to advertising and marketing specialists, as well as consumer and social psychologists.

Este libro está compuesto por las siguientes historias cortas: Aristóbulo Jiménez, 29 Años Una historia que habla sobre el racismo, la actuación y las dificultades a las que nos podemos enfrentar cuando creemos que ya pasó el tiempo para cumplir nuestros sueños. «Voy y me miro al espejo, a ver si es que realmente soy muy feo, raro, si parezco un extraterrestre o qué.» El Espejero Una crónica de ciudad, en la cual un vendedor de espejos nos habla de su trabajo, dejando ver otros aspectos de su vida que abren nuevas preguntas para el lector atento. «Voy despacio, a paso constante, deslizando mi sombra y la de la carreta a lo largo del pavimento caliente, emitiendo destellos alrededor, jalando mi máquina reflectora de luces» Los Bichos Esta es una historia sobre entregarse sin reservas a los sueños de juventud, a viajar y aprender. Aquí se dejan ver esas ganas de sacudir a la vida para que nos entregue más de lo que su cara dura parece que nos quiere negar. «Viajaría muy lejos, conocería una cultura

completamente diferente, un nuevo idioma, tendría que valerme por mí mismo durante un buen tiempo, en fin, conversando con él podía casi sentirme viviendo esa aventura en Japón.» Un día de Julio Hay ocasiones en que el amor y el desamor se encuentran para conversar, o al menos, desean con toda el alma poder encontrarse, en «Un día de Julio» se relata lo que sucede en una de estas oportunidades. «Encontrarse con ella era un premio, una lotería; o tal vez no, podía ser un castigo, como la última vez, cuando ella fue tan fría, tan distante, era simplemente una oportunidad.» Cenizas de una Fábula Un mismo hecho puede ser contado e interpretado de muchas maneras distintas. En este cuento por unos minutos se le quita al cigarrillo el traje de enemigo mortal, y se concentra la descripción de otros aspectos de este compañero incandescente. «Luis estaba en camino de una decisión tan equivocada, que frente a ella, todos los problemas que había tenido se verían como felices y anhelados recuerdos.» Los Primos Moreno Aquí hurgaremos en los correos electrónicos que dos primos se envían durante cierto periodo de tiempo. Uno es relajado y apasionado por la mecánica y las carreras de motos, el otro viaja dispuesto a hacerse un futuro en la capital a pesar de los esfuerzos que esto suponga. Así como con los anteriores relatos, en vez de respuestas, es más probable que en el lector surjan sensaciones y preguntas al leer este relato. «Me acuerdo de todo eso, y me dan ganas de mandar todo a la quinta porra, devolverme para allá, vivir tranquilo, y estar pendiente de todas las pendejadas de la familia y los amigos.»

Una inflexion en la trayectoria evolutiva de la humanidad, senalada por Nostradamus a traves de una de sus mas famosas profecias, se convierte en realidad en medio de una cruenta guerra que el ejercito colombiano, apoyado por el ejercito americano, libra contra una nueva y

temible organizacion terrorista internacional. Nicolas Sarmiento demostro ser, desde que nacio en 1997, un nino diferente. Sus habilidades y dones se fueron desarrollando hasta que tuvo que enfrentarse con un enemigo mucho mas poderoso que el, un complot de alcances inimaginables, que pone en peligro la continuidad de la raza humana, tal y como hoy la conocemos. Las fuerzas del bien y del mal parecen haber escogido a Nicolas como instrumento de una mas de sus batallas. En medio de la accion y el suspenso que transcurre en diferentes escenarios de Colombia y los Estados Unidos, el lector se encontrara -finalmente- con una realidad que tarde o temprano la humanidad tendra que afrontar: la posibilidad de que las personas podamos alcanzar la inmortalidad. Por ser una historia cuyo desenlace ocurre en el futuro (2019), la tecnologia es un factor preponderante y es por eso que sus aspectos tecnicos han sido cuidadosamente estudiados y documentados.
