Introduction to Networks is the first course of the updated CCNA v5 curriculum offered by the Cisco Networking Academy. \* \*This course is intended for students who are beginners in networking and pursuing a less technical career. \*Easy to read, highlight, and review on the go, wherever the Internet is not available. \*Extracted directly from the online course, with headings that have exact page correlations to the online course.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Introduction to Networks Companion Guide v6 is the official supplemental textbook for the Introduction to Networks course in the Cisco® Networking Academy® CCNA® Routing and Switching curriculum. The course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum.
