## **IFRIC 23: Uncertainty over income tax treatment**

IAS 12 is concerned with. IAS 12 deals with accounting for income taxes and defines income taxes as all domestic and foreign taxes that are based on taxable profits. The starting point in determining whether IAS 12 applies to a particular tax is whether such tax is based on taxable profits as opposed to another metric, such as sales.

Seminar paper from the year 2009 in the subject Business economics - Accounting and Taxes, grade: 1,7, AKAD University of Applied Sciences Stuttgart, course: IFRS, language: English, abstract: 1 Introduction In a global economy there is a need for common accounting rules. It is simply important for an enterprise to know that national and international stock exchange rules require the application of internationally accepted

# Get Free Deloitte Ias 12 Tax Accounting Guide

accounting directives. So there are several good reasons for a trend towards internationalization. For an investor means internationalization usually accompanied by a standardization of accounting rules that he can compare financial statements quicker and easier. There are no longer time-consuming and expensive conversions of financial statements necessary. Internalization means also that the national differences in the determination of profit will disappear. Standardization would give the term "profit" substance and would allow the comparison of financial statements of different enterprises
