Environmentalty: Technologies of Government and the ...

Ecogovernmentality, (or environmentalty), is the application of Foucault’s concepts of biopower and governmentality to the analysis of the regulation of social interactions with the natural world. The concept of Ecogovernmentality expands on Foucault’s genealogical examination of the state to include ecological rationalities and technologies of government (Malette, 2009).

By ... and feminist environmentalism can be combined—in an approach he calls environmentalty—to better understand changes in conservation efforts. Such an understanding is relevant far beyond Kumaon: local populations in more than fifty countries are engaged in ...

Environmentalty: Technologies of Government and the ...

Technologies of government can be used to frame “waste” issues (disease, disposal management, etc.) and solutions (sanitation, recycling, etc.). However, the theory of governmentality argues that power moves throughout all sectors of society, which means that grassroots movements can take up, contest, change, or modify those government and industry framings of waste and its accompanying solutions.
