On Information Systems~~

A project management handbook, as we understand the term here, is a handbook describing a specific project . It is a living document we create early in definition phase and update it regularly throughout the life cycle of the whole project, until closing it when official project conclusion takes place. The basic idea of such a handbook is to have a virtually complete compendium that contains literally everything that corresponds to that project.

management approach into UNODC projects and programmes,

~~Results-based Management and the 2030 Agenda for ...~~

Project management is the discipline of planning, organising and managing resources to bring about the successful completion of specific project goals and objectives. The challenge of project management is to achieve all of the project goals and objectives while honouring the project constraints. The main constraints are scope, time and budget.
