Jamie Glowacki—potty-training expert, Pied Piper of Poop, and author of the popular guide, *Oh Crap! Potty Training*—shares her proven 6-step plan to help you toilet train your preschooler quickly and successfully. Worried about potty training? Let Jamie Glowacki, potty-training expert, show you how it ' s done. Her 6-step, proven process to get your toddler out of diapers and onto the toilet has already worked for tens of thousands of kids and their parents. Here ' s the good news: your child is probably ready to be potty trained EARLIER than you think (ideally, between 20 – 30 months), and it can be done FASTER than you expect (most kids get the basics in a few days—but Jamie ' s got you covered even if it takes a little longer). If you ' ve ever said to yourself: ** How do I know if my kid is ready? ** Why won ' t my child poop in the potty? ** How do I avoid “ potty power struggles ” ? ** How can I get their daycare provider on board? ** My kid was doing so well—why is he regressing? ** And what about nighttime?! *Oh Crap! Potty Training* can solve all of these (and other) common issues. This isn ' t theory, you ' re not bribing with candy, and there are no gimmicks. This is real-world, from-the-trenches potty training information—all the questions and all the ANSWERS you need to do it once and be done with diapers for good.
