Amazon.com: Customer reviews: Mox Nox

“Mox Nox” didn’t really work for me, and when I read this review I asked myself why. I came up with this plausible, but possibly bullshit explanation: Cornella paints his comics (prettily, I think); paint *reads*, visually, like a lot of labor; and, for me at least, the payoff for all that work just isn’t there.

Why study history? What's the point? Through compelling historical narratives, such as the assassination of President Kennedy, Dr David Nash introduces us to the central elements of the subject. Readers learn how history seeks to explain, categorise and make sense of events of the past. It is a search for truth which involves searching for sources and then scrutinising them to try and determine how reliable they are. Nash explores how new interpretations can change our understanding of what was previously an established version of history and what lasting contribution the study of history can make to society and, indeed, civilisation. Ideal for those with an emerging interest in history, the book is designed to provide readers with a toolkit for further investigation of the subject.

Tony Millionaire, creator of Sock Monkey and one of America's most popular weekly comic strips, Maakies, delivers his first original graphic novel for Fantagraphics, *Billy Hazelnuts*. Billy Hazelnut transmutes nursery rhymes and the golem myth into a storybook about Becky, girl scientist, her friend Billy Hazelnuts (who was created from cooking ingredients by tailless mice), and their journey to find the missing moon while battling an evil steam-driven alligator with a seeing-eye skunk. Millionaire fuses the darker spirit of older fairy tales with an absurdist adventure story, throws gender politics into the mix, and brings it to life with his dementedly charming and meticulous drawing style that is utterly transporting.

With few words and gorgeous style, a cartoonist takes aim at the hypocrisies of the art world *White Cube* is the Belgian cartoonist and illustrator Brecht Vandenbroucke's debut book, a collection of mostly wordless strips that follow a pair of pink-faced twins as they attempt to understand contemporary art and the gallery world. Their reactions to the art they encounter are frequently comedic, as they paint over Pablo Picasso's famous mural *Guernica*, and re-create a pixelated version of Edvard Munch's *The Scream* after receiving one too many e-mails. Lushly painted, these irreverent strips poke fun at the staid, often smug art world, offering an absurdist view on the institutions of that world—questioning what constitutes art and what doesn't, as well as how we decide what goes on the walls of the gallery and what doesn't. Vandenbroucke's distinctive work blends the highbrow with the low, drawing equally from Gordon Matta-Clark's site-specific artwork and the Three Stooges' slapstick timing. With a knowing wink at the reader, Vandenbroucke continuously uncovers something to laugh about in the stuffiness and pretentiousness of the art world.

This fine art monograph/faux underground comic facsimile is a psychedelic trip through the hippie movement. In 2017, Gary Panter created an art installation, *Hippie Trip*, inspired by his first visit to a head shop in 1968. It expanded his mind to the possibilities of psychedelic art and music, analog crafts and drug culture. *Crashpad* is an extension of that installation and a riff on underground comics creators such as Zap's R. Crumb, Victor Moscoso, Robert Williams, and other icons of that era.

This is a treatise on what makes art art, told in graphic novel form. What is "Art"? It's widely accepted that art serves an important function in society. But the concept falls under such an absurdly large umbrella and can manifest in so many different ways. Art can be self indulgent, goofy, serious, altruistic, evil, or expressive, or any number of other things. But how can it truly make lasting, positive change? In *Why Art?*, acclaimed graphic novelist Eleanor Davis (*How To Be Happy*) unpacks some of these concepts in ways both critical and positive, in an attempt to illuminate the highest possible potential an artwork might hope to achieve. A work of art unto itself, Davis leavens her exploration with a sense of humor and a thirst for challenging preconceptions of art worth of Magritte, instantly drawing the reader in as a willing accomplice in her quest.

In rural Wales, Helen, an amateur bird watcher, investigates the apparent suicide of a 'rare bird' named Emrys. Helen's inner life is slowly revealed through a mixture of naturalistic detail and phantasmagoric occurrences.
