Reflections on a

Sacred Civics argues that societal transformation requires that spirituality and sacred values are essential to reimagining patterns of how we live, organize and govern ourselves, determine and distribute wealth, inhabit and design cities, and construct relationships with others and with nature. The book brings together transdisciplinary and global academics, professionals, and activists from a range of backgrounds to question assumptions that are fused deep into the code of how societies operate, and to draw on extraordinary wisdom from ancient Indigenous traditions; to social and political movements like Black Lives Matter, the commons, and wellbeing economies; to technologies for participatory futures where people collaborate to reimagine and change culture. Looking at cities and human settlements as the sites of transformation, the book focuses on values, commons, and wisdom to demonstrate that how we choose to live together, to recognize interdependencies, to build, grow, create, and love—matters. Using multiple methodologies to integrate varied knowledge forms and practices, this truly ground-breaking volume includes contributions from renowned and rising voices. Sacred Civics is a must-read for anyone interested in intersectional discussions on social justice, inclusivity, participatory design, healthy communities, and future cities.

Reflections of a Wanna B Cowboy is the author ' s fifth book. Reflections is essentially Lindsey ' s autobiography written in " talk story " format. Talking story is a way of communicating among locals in the islands. Lindsey and his grandson Samuel Kamaile are its main characters. Its basic message is, we are global citizens. Author ' s Statement Reflections of a Wanna B Cowboy is my personal life story. Reflections is a story about an unfulfilled dream. I wanted so much as a kid to be a cowboy on the Parker Ranch when I became a man—a dream I dreamed countless times. But as oft happens to so many of us, this life force called destiny intervened and altered my plan. WWith my oldest grandson Samuel ' s help as facilitator, in this autobiography of sixty snippets, I tell my story for our grandsons to remember their Tutu (grandma) and me by. Reflections has a larger message: we are citizens of the world.

Conversational in tone and providing highly practical advice for new deans, Reflections of a Rookie Dean: Lessons from the First Year chronicles the experiences of a novice college leader. Providing aspiring and new deans with insight and direction into the job of leading a college, this book is well positioned to help new leaders develop a better understanding of leadership in higher education and the challenges that new deans face. Deans, who function as middle managers in higher education, face a distinctive set of challenges. They are responsible for leading their college, implementing shared strategies, and motivating staff. But, they are also expected to enact the vision of senior leadership and mobilize support for broader institutional goals. To be successful, they must be skilled at managing both up and down the institutional hierarchy. This book provides insight into: • Understanding what effective leadership looks like in practice • Developing leaders in your college • Understanding how to initiate and implement change • Considering the ethical aspects of leading • Understanding how your leadership and college fits within the larger university • Strategically thinking about decision-making • Understanding the rhythms of serving as a new dean and leader This book is a must have for aspiring college leaders, organizers of leadership development programs, and university professors teaching coursework in higher education administration. Whether you are planning to be a college leader, are new to your role, or are looking to build capacity in your college, Reflections of a Rookie Dean can help you along your leadership journey.

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

A sobering account of a disenfranchised American working class and important policy solutions to the nation's economic inequalities One of the country's leading scholars on economics and social policy, Isabel Sawhill addresses the enormous divisions in American society--economic, cultural, and political--and what might be done to bridge them. Widening inequality and the loss of jobs to trade and technology has left a significant portion of the American workforce disenfranchised and skeptical of governments and corporations alike. And yet both have a role to play in improving the country for all. Sawhill argues for a policy agenda based on mainstream values, such as family, education, and work. Although many have lost faith in government programs designed to help them, there are still trusted institutions on both the local and the federal level that can deliver better job opportunities and higher wages to those who have been left behind. At the same time, the private sector needs to reexamine how it trains and rewards employees. This book provides a clear-headed and middle-way path to a better-functioning society in which personal responsibility is honored and inclusive capitalism and more broadly shared growth are once more the norm.

A comparative study of citizenship education and adolescent political attitudes in five western democracies.

Community college faculty can turn to this easy-to-use guide for both the theory and the practice of incorporating civic responsibility concepts into service learning courses. Includes multiple faculty and student exercises, activities, and assessment tools.

Reflections on

Debates regarding the qualities, skills, and dispositions of culturally relevant teachers and teaching have raged in teacher education for several decades. Ladson-Billings ' (2009) The Dreamkeepers: Successful Teachers of African American Children was a groundbreaking work that has become a foundational study that informs the work of culturally-relevant (Ladson-Billings, 2009) and culturally-sustaining (Paris & Alim, 2017) teaching. In her book The Dreamkeepers she describes effective teachers who are able to draw from the cultural wealth, knowledges, and heritage of Black communities. The Dreamkeepers ensured that their Black students were academically successful, retained, and grew both in terms of their cultural competence and their sociopolitical awareness. In other words, according to research by Ladson-Billings (2009), effective teachers possessed both pedagogical and relational dispositions, which leave lifelong impacts on the academic and social lives of the students they teach. While being a foundational text, what remains missing from the research on culturally-relevant and even culturally-sustaining teachers are " narratives " (read: stories, testimonials, etc.) related to how the race of particular E – 12 teachers positively impact the lives of their students. For instance, Dr. Antonio Ellis (the first editor of the proposed book) describes his high school music teacher Mr. Linard McCloud) as " a highly effective African American music educator who changed the course of his life " (p. 170). Ellis (2016) describes McCloud as being loving, caring, creative, culturally sensitive, attuned, hopeful, flexible, organized, and thoughtful. Because Mr. McCloud possessed the aforementioned characteristics and dispositions, Ellis contends that he was motivated to achieve academically and socially in his urban high school. In addition, according to Ellis (2016), Mr. McCloud was a highly impactful educator because he went beyond the call of duty as a teacher—a practice that is not so common in schools, particularly urban ones. Not only did McCloud teach in the classroom setting, but he also built strong relationships with families, community members, and external stakeholders including local businesses, colleges, and universities. Mr. McCloud used these networks to leverage opportunities for his students academically, personally, and professionally. Like many of his high school classmates, Ellis (2016) contends that he would not have graduated from high school if it were not for the care and mentorship he received from Mr. McCloud. In this proposed edited volume, it is the editors ' goal to honor teachers like Mr. McCloud who have made a difference in the lives of their students by learning from their impactful practices. Employing a " critical storytelling " methodology (see Hartlep & Hensley, 2015; Hartlep, Hensley, Braniger, & Jennings, 2017), each chapter contributor will use his or her own narrative to show the power of influential teachers in classrooms. While this framework centers race, lived and learned experiences, the storyteller is the most important unit of narrative; hence, The Impact of Classroom Practices: Reflections on Culturally Relevant Teachers will include African-American storytellers who reflect on the impact of classroom practices of teachers from diverse backgrounds who they deemed culturally relevant and responsive to both their academic and social needs. This work will offer recommendations to pre-service teachers and in-service teachers who desire to leave a lasting impact on the students they teach.
