An exact match to AQA which includes personalised learning activities enable students to review what they have learnt and advice from examiners on common pitfalls and how to avoid them.

Help students navigate key concepts and philosophical arguments and develop their own points of view with our clear, engaging AS Philosophy textbook, written for the new AQA AS Philosophy specification Written by the authors of Philosophy in Focus, this book covers both units, Epistemology and Philosophy of Religion, and supports students in understanding difficult material through a clear style and visual examples of concepts and ideas. - Encourages students to engage with the anthology texts with clear prompts to read the relevant extracts, helpfully provided at the back of the book for ease of teaching and studying - Cements knowledge and understanding of key philosophical ideas through varied activities - Develops analytical skills and students' own philosophical viewpoints through practical tasks - Stretches students with clearly signposted extension material Contents Introduction Introduction to Descartes' Meditations Section 1: Epistemology Section 2: Philosophy of Religion Section 3: Preparing for the exam 3.1 How to approach the exam 3.2 How to read philosophy Section 4: Anthology extracts Glossary Notes Selected bibliography Index

The AQA A level Lab Books support students in completing the A level Practical requirements. This lab book includes: All the instructions students need to perform the required practicals, consistent with AQA's requirements and CPAC skills Writing frames for students to record their results and reflect on their work Questions that allow students to consolidate learning and develop reflective skills in their practical work Apparatus and Techniques (AT) skills self-assessment, so that students can track their progress covering AT practical requirements a full set of answers at the back. This lab book is designed to help students to: Structure their A level lab work to ensure that they cover the required Practical assessment criteria Track their progress in the development of A level practical skills Create a record of all of the practical work they will have completed, in preparation for revision.

Confidently teach the new specifications with this Teacher Support Guide that helps you through the new specification with simple lessons plans, guidance on linear teaching and the changes to practical assessment, numeracy and literacy support and advice for nonspecialist teachers. - Supports the literacy and mathematical demands of the new GCSEs with specific sections on engaging with numeracy and literacy. - Offers guidance on effective revision techniques to help consistently grow and develop independent learners. - Reduces your planning time with simple lesson plans for each topic. - Helps caters for students of varying abilities with guidance on using differentiated approaches to respond to differing student needs. - Includes a complete guide to Dynamic Learning resources - for easy lesson preparation

Help your students perfect their understanding and prepare for examinations with accessible science content presented at the right level. An accessible Revision Guide that completely covers the most recent specification with up-to-date revision questions. Written by best-selling authors with substantial examining experience at both Foundation and Higher level for CCEA. - Ensures students' understanding with clear worked examples and content written at the correct level - Provides practice for assessment with lots of Revision Questions - Enables students to improve their grade with helpful exam tips that covers key terminology and guidance on preparing for assessment - Helps students to practise and remember key terms with a full Glossary

Exam Board: Edexcel Level: GCSE Subject: Business First Teaching: September 2017 First Exam: June 2019 Endorsed for Edexcel Let Ian Marcouse successfully steer you through the new specification with his proven and popular approach to Business; clear content coverage is enhanced by numerous real-life examples to create a course that engages, motivates and develops every student. - Breaks down the content of the 2017 specification into clear, accessible explanations of important concepts and theories - Helps students apply their knowledge to a range of real business examples, issues and contexts, supported by 'Talking Points' that encourage critical and commercial thinking - Improves quantitative, investigative, analytical and evaluation skills through end-of-chapter exercises - Builds students' confidence approaching their exams as they practise calculation, short answer and extended-writing questions with stimulus materials - Boosts students' vocabulary and supports revision with definitions of key terminology for each topic

WJEC are revising their specifications for GCSE Science and GCSE Additional Science for first teaching from September 2011. As well as covering important scientific concepts, they highlight the role of scientific investigation in developing understanding, testing ideas and drawing conclusions. They also show how the science of the classroom relates to the world around us. This book fully supports the aims of the GCSE Science specification by providing clear explanations, definitions of key terms, questions to test understanding and clearly identified Science Skills exercises. It also shows - how to evaluate evidence and draw conclusions - the implications of science for society - the role of models in science - the importance of practical work

Packed with clear, accessible study notes for every AQA GCSE Physics topic, this Revision Guide is an ideal study companion for the whole course. It also includes revision summary questions, advice on exam skills and a touch of humour to help prevent students getting bogged down

Unlock your students' full potential with these revision guides from our best-selling series My Revision Notes With My Revision Notes your students can: - Manage their own revision with step-by-step support from experienced teachers with examining experience. - Apply scientific terms accurately with the help of definitions and key words. - Prepare for practicals with questions based on practical work. - Focus on the key points from each topic - Plan and pace their revision with the revision planner. - Test understanding with end-of-topic questions and answers. - Get exam ready with last minute quick quizzes available on the Hodder Education Website.
