From the bestselling author of *Bright Side* and *Gus Love is strange*. It comes out of nowhere. There's no logic to it. It's not methodical. It's not scientific. It's pure emotion and passion. And emotion and passion can be dangerous because they fuel love...and hate. I'm now a reluctant connoisseur of both—an expert through immersion. I know them intimately. When I fell in love with Miranda, it was swift and blind. She was the person I'd elevated to mythical status in my head, in my dreams. Here's the thing about dreams, they're smoke. They're spun as thoughts until they become something we think we want. Something we think we need. That was Miranda. She was smoke. I thought I wanted her. I thought I needed her. Over time reality crept in and slowly dissected and disemboweled my dreams like a predator, leaving behind a rotting carcass. Reality can be a fierce bitch. So can Miranda. And I can be a fool... who believes in dreams. And people. And love. Note from the author: Due to strong language and sexual content, this book is recommended for mature audiences only.

A single night with Megaera and I'm willing to do anything to save her from Hades, the man holding her captive, victim to his every whim. A bargain with the devil himself seems a small price to pay in order for Megaera to go free... Until I learn that she's exactly where she wants to be. She's Queen to Hades's King. And I'm the fool that walked right into their trap. The same fool who desires them both as much as I hate them. I can't resist Megaera's touch-or stop from being drawn to Hades's

dark desires. By the time I realize just how deep a game he's playing, it may be too late...For all of us.

A developmental psychologist argues that children who are freed to follow their own interests through self-directed play will become better learners and achievers than the way they learn in modern school, which he says shows them that learning is work and not fun. 15,000 first printing.

For over 25 years, renowned brain coach Jim Kwik has worked closely with top actors, athletes, CEOs, and superachievers in all walks of life to unlock their true capabilities. In this groundbreaking book, he reveals the science-based practices and field-tested techniques that the world's top performers use to accelerate their learning and create world-class results.

Mastering one specific skill set might have been the key to success 20 years ago . . . but being the best at a single thing just doesn't cut it in today's global economy. Think about those people who somehow manage to be amazing at everything they do—the multimillionaire CEO with the bodybuilder physique or the rock star with legions of adoring fans. How do they manage to be so great at life? By acquiring and applying multiple skills to make themselves more valuable to others, they've become generalists, able to "stack" their varied skills for a unique competitive edge. In *How to Be Better at Almost Everything*, bestselling author, fitness expert, entrepreneur, and professional business coach Pat Flynn shares the secrets to learning (almost) every skill, from marketing and music to relationships and martial arts, teaching how to combine interests to achieve greatness in any field. Discover how to:

- Learn any skill with only an hour of practice a day through repetition and resistance
- Package all your passions into a single tool kit for success with skill stacking
- Turn those passions into paychecks by transforming yourself into a person of interest

To really get ahead in today's fast-paced, constantly evolving world, you need a diverse portfolio of hidden talents you can pull from your back pocket at a moment's notice. The good news? You don't need to be a genius or a prodigy to get there—you just have to be willing to learn. *How to Be Better at Almost Everything* will teach you how to make your personal and professional goals a reality, starting today.

A New York Times political cartoonist and writer presents a collection of his most popular essays and drawings about life and government hypocrisy, exploring the darkly comic aspects of such topics as falling in love with unlikeable people, managing a friend with outspoken political views and reacting to a long acquaintance's sex-change operation. By the creator of *The Pain--When Will It End?*

A hot contemporary romance from the author of the acclaimed *I-Team* series... Lexi Jewell left Scarlet Springs twelve years ago, vowing never to return to the small Colorado mountain town where she grew up. Now, here she is—over thirty, out of a job and with little choice but to move back in with her eccentric father. Lexi knows it's just a matter of time before she runs into Austin Taylor, her first boyfriend and her first heartbreak. She's determined to show him she's over him—until he steps out of a pickup truck and back into her life, looking sexy as hell in his mountain ranger uniform. As far as Austin is concerned, Lexi can turn her snazzy little convertible around and drive back to Chicago. After all, she ripped his teenage

heart to pieces and turned her back on the town he loves. But from the moment he sees her again, he can't get her out of his mind. Even her smile messes with his head. When an evening of conversation turns into something else, Lexi and Austin agree to be friends-with benefits. But as Lexi starts making plans to return to the big city, Austin realizes he'll lose her a second time unless he can show her that what she's searching for has been right here all along. "Pamela Clare is a dazzling talent." -Lori Foster, New York Times bestselling author

Learning Curves is a single dad, enemies to lovers, curvy girl rom-com with a teacher that everyone wished they had in school, and a swoon-worthy dad that would do anything for his daughter. Throw in an overeating dog and watch what happens next. To Spencer Hurley, women only left pain and destruction in their wake. The only good thing that came from his disaster of an ex was his daughter, Annabelle. Right now, making sure Belle was taken care of and getting her the help she needed with her learning disabilities was his only focus. And if that meant moving to a new town, consider the moving truck rented and packed. Ellie Ryan spent her childhood being judged and bullied because of her learning disabilities. Jokes on them, though, she was now the top special education teacher in her district. See, Ellie totally had her life together. Kind of. Maybe... Okay, really, she's a word-vomiting, curvy, hot-mess, who hasn't had a date in who knows how long. And then there was Roxy, her rude overeating dog. Nevertheless, Ellie was fiercely protective of her students. She'd gladly rip out the throat of anyone that dared to mess with her kids. Including their parents. So, please explain to Ellie why, even after calling her new student's father out during a disastrous parent-teacher meeting, Ellie couldn't help being insanely attracted to the gruff single dad? Somebody, please help her. Besides, nothing good could come from it... right?

Kings and queens, British prime ministers, American presidents, countries of Europe... We should all know these things - but like me, you're probably resigned to being the kind of person that just never will. Now Grandmaster of Memory Ed Cooke offers up his memory secrets with a fun, quick and completely unforgettable way to remember the things you thought you never could. But this is no boring Willy, Willy, Harry, Ste. With Ed leading the way on unlikely adventures through people and places, Abraham Lincoln may become a circle of bra-wearing hams linking arms in your mind, and you may well encounter a fridge wearing Calvin Klein underpants. You could also soon find yourself rattling off the prime ministers to a rapt audience and adding, in a knowing tone, 'ah yes, Marquess of Rockingham, Whig I believe?'. What is for sure is that you'll be bursting with knowledge that will stick in your mind and impress your friends for ever.
