The Producer's Business Handbook provides a model for making a successful business of independent filmmaking. It will give you a comprehensive understanding of the business of entertainment and supply you with the information and tools you'll need to successfully engage all related aspects of global production and exploitation. The handbook also provides a global orientation to the relationships that the most successful producers have with the various participants in the motion picture industry. This includes how producers direct their relationships with domestic and foreign studios, agencies, attorneys, talent, completion guarantors, banks, and private investors. It provides a

thorough orientation to operating production development and single purpose production companies, from solicitation of literary properties through direct rights sales, and the management of global distribution relationships. Also presented is an in-depth discussion of the team roles needed to operate these companies, as well as how to attach and direct them. For those outside of the US, this book also includes information about how to produce successful films without government funding. This edition has been updated to include comprehensive information on the internal greenlighting process, government financing, and determining actual cost-of-money. It includes new simplified project evaluation tools, expediting funding and distribution. Together with its companion CD-ROM, which contains valuable forms and spreadsheets; tutorials; and samples, this handbook presents both instruction and worksheet support to independent producers at all levels of experience.

This practical sourcebook has been specially prepared to give you an at-a-glance guide to quality video program-making on a modest budget. Emphasis throughout is on excellence with economy; whether you are working alone or with a small multi-camera group. The well-tried techniques detailed here will steer you through the hazards of production, helping you to avoid those frustrating, time-wasting problems, and to create an effective video program. For many years Video Production Handbook has helped students and program-makers in a wide range of organizations. Now in its thoroughly revised 3rd edition, Video Production Handbook guides you step-by-step, explaining how to develop your initial program ideas, and build them into a successful working format. It covers the techniques of persuasive camerawork, successful lighting and sound treatment, video editing...etc. You will find straightforward up-to-the-minute guidance with your daily production problems, and a wealth of practical tips based on the author's personal experience. In this extended edition, you will see how you can use quite modest chromakey facilities and visual effects to create the magic of virtual reality surroundings. Gerald Millerson's internationally acclaimed writings are based on a long and distinguished career with the BBC. His lecturing background includes TV production courses in the United States and UK. A comprehensive manual on the production of a movie includes discussions of digital and film systems, sound recording, lighting, editing, and the postproduction and distribution processes.

Here is the one-stop handbook to make your studio production shine. The TV Studio Production Handbook explains the production process from beginning to end and covers everything media students need to know to create a successful studio television programme. It is an illuminating read for those starting out in the industry and an invaluable resource for students of media, film and TV. The book is packed with interviews from top TV executives from the UK, USA, Australia and China and includes live case studies from hit international formats covering every genre, from reality, to drama to news, with scripts from Britain's Got Talent, Big Brother, Coronation Street, The Chase, Teletubbies, Channel 4 News and more. The authors, both award-winning TV programme-makers and academic programme leaders, break things down genre by genre and explore pre-production, casting, scripting, as well as all the required paperwork from call sheets to running orders. They also examine the future of studio and the multiplatform opportunities available for programme makers internationally.

Myrl Schreibman has written a comprehensive and practical, step-by-step guide for organizing and running a film from pre-production through post-production and delivery. This invaluable resource provides fundamental tools to produce a more thorough, more organized, and more professional film production. Packed with engaging and useful anecdotes, Schreibman provides a superlative introduction and overview to all of the key elements in producing for film and television. Useful to film students and filmmakers as a theoretical and practical guide to understanding the filmmaking process, Schreibman fills his manuscript with practical examples from his considerable personal experience in the film industry. Loaded with insider tips to help filmmakers avoid the pitfalls of show business.
