Today, the theory and history of education are of universal interest. We have come to realize that educational practice must be illuminated by critical examination. We have learned that without a consideration of goals and purposes education is bound to suffer from a grave limitation of vision.

A History of Educational Thought by Frederick Mayer, 1960 ...

In 1986, Norway's then-Minister of Church and Education Affairs Kjell Magne Bondevik proposed new education plans for the elementary and middle school levels which included skepticism to the theory of evolution and would hold that a final answer to the origin of mankind was unknown. The proposal was withdrawn after it had generated controversy.
