Play this game to review Science. For an object to appear opaque, what interaction must occur between the light waves and object they hit?

Sound and Light Test Review | Science Quiz - Quizizz

When two or more waves meet up with each other while moving through the same medium, interference occurs. When you try to observe this phenomenon in real life, the two waves become lost in one another and it becomes difficult to perceive the principles that underlie the phenomenon. But this simulation comes to the rescue, allowing the learner to step through in slow motion and view the ...
